

INTEREST INVENTORY

The COPS provides job activity interest scores related to Occupational Clusters. Each cluster is keyed to curriculum choice and major sources of detailed job information including the COPSsystem *Career Briefs Kit*, COPSsystem *Cluster Booklets Kit*, O*NET, and the *Occupational Outlook Handbook* (OOH). Low cost, on-site scoring providing immediate feedback of results, and the use of one instrument for vocationally oriented and college oriented persons are major features.

The Career Guidance Unit may start with the determination of occupational interests as measured by the *Career Occupational Preference System* Interest Inventory (COPS). Items in the COPS Interest Inventory provide a broad overview of the world of work. A one-hour ability battery, the *Career Ability Placement Survey*, (CAPS), is available and is keyed to the COPSsystem Occupational Clusters. The *Career Orientation Placement and Evaluation Survey*, (COPES), a survey of work values is also available, as well as a Summary Guide.
