June 30, 2007

Dear IRIS Customer,

ERAS is pleased to announce an update for your IRIS On-Site software for scoring the COPSsystem.

Available now, the update is designed to make IRIS more efficient and includes a scoring enhancement. It also includes support for the new generation of scanners and improves communications with scanners connecting via the Universal Serial Bus (USB) port.

Please contact us immediately for instructions on how to easily download and update your IRIS program at no charge. We look forward to hearing from you and please do not hesitate to contact us with any questions you may have.

Sincerely,

Ron Williams
